OUR TOPIC

We aim to design an online platform that connects refugee communities with campus initiatives, helping to reduce the effects of online suppression. The platform will help local communities engage with refugee organizations through a website, which will ideally facilitate effective communication and help build stronger connections among students, activists, and community members.

RESEARCH QUESTION(S)

Centered mainly the topic of how we can aid the connection of invested members of a cause and those they're trying to help.

Ex:

- What specific features would make an online platform useful for activists and organizations that may not be allowed to engage in physical, centralized organizing?

BACKGROUND/ METHODOLOGY

Before we began our interview process, we delved into some research papers that addressed the connection of online spaces and its effect on collective advocacy and action for a cause

Some Interesting Finds!

From readings/ethnographic interviews/ etc.
